

February 2023

On Campus & Online FDP

S. No.	Date	Title of FDP
1.	30-Jan-2023 to 10-Feb-2023	The Essence of Density Functional Theory (DFT) for Materials Modelling. (On Campus)
2.	06-Feb-2023 to 08-Feb-2023	Recent Trends in Electronics and Data Science
3.	06-Feb-2023 to 10-Feb-2023	Confluence of AI with High performance computing(On Campus)
4.	10-Feb-2023	Backend Implementation of VLSI Circuits
5.	10-Feb-2023	Building Inner Confidence through neuro-scientific techniques (On Campus)
6.	13-Feb-2023 to 15-Feb-2023	Recent Practices for Secured Software Development
7.	13-Feb-2023	Consciousness of the Built Environment
8.	17-Feb-2023	Tips and Tricks for Efficient MIP Formulation and Linearizations (On Campus)
9	21-Feb-2023	Innovation and startup management (On Campus)
10	27-Feb-2023 to 03-Mar-2023	Computational Fluid Dynamics for Beginners: Modeling and Applications
