Topic: Copyrights and trade marks

Discussion points :

- 1.What is Copyright and Its Scope.
- 2.Copyright Ownership and Rights.
3. What does a trademark protect.
4. Purpose of a trade mark.
5. Advantages of Trademarks and Copyrights.

Copyright law applies to intellectual works.

A wide and diverse range of materials are protectable under copyright law. Books, journals, photographs, art, music, sound recordings, computer programs, websites, and many other materials are within the reach of copyright law. Also protectable are motion pictures, dance choreography, and architecture. If you can see it, read it, hear it, or watch it, chances are it is protectable by copyright law.

Rely more on expression in the form sharing of ideas, sharing stories and caselaws...

Coordinator's: Prof. DEEPA G 13400 - Assistant Professor Sr. Grade 1 - SAS
