Title : Advanced Grant Writing Specific Aims Workshop

Event Outcome

- By the end of the workshop

Date : 2025-12-10 - 2025-12-10

Time : 11:45 - 13:15

Venue : TT 707

Resource Person 1 - Details

Name : Dr Sridevi Sarma

Designation : Professor, Biomedical Engineering

University/ Company : Johns Hopkins University, Baltimore

Address : United States of America, 21218.

Resource Person's Profile :

1. Profile of Dr Sridevi Sarma

Dr. Sarma is a professor of biomedical engineering, vice dean in the Whiting School, and associate director of the Institute for Computational Medicine. Her research includes modeling, estimation, and control of neural systems. She is a recipient of the Burroughs Wellcome Fund Careers at the Scientific Interface Award, the Krishna Kumar New Investigator Award, and Presidential Early Career Award. She received her PhD in electrical engineering and computer science from MIT.

This two-hour workshop is designed to equip faculty members with practical strategies and essential skills required to develop competitive grant proposals. The session will focus on understanding the core components of a successful proposal, identifying suitable funding opportunities, and aligning research ideas with the expectations of funding agencies.

Participants will gain insights into structuring a compelling narrative, articulating problem statements, defining clear objectives, and developing strong methodology and budget plans. The workshop will also highlight common pitfalls in grant writing, techniques for improving clarity and impact, and tips for enhancing proposal competitiveness through evidence, feasibility, and innovation.

Learn proven strategies and gain practical insights from an expert who has successfully navigated the complexities of the grant application process. This hands-on workshop will equip you with the tools to craft compelling proposals that stand out, significantly enhancing your chances of securing funding.
