Resource Person 1 - Details

Name : Sasanka Bhushan Pulipati

Designation : Associate Professor Grade 1, School of Civil Engineering

University/ Company : VIT, Vellore

Address : India, 632014.

Resource Person's Profile :

1. Profile of Sasanka Bhushan Pulipati

Crowd and Traffic Management

Crowd and traffic management means systematically planning, organizing, and supervising large groups of people and vehicles to ensure their safety, efficiency, and smooth flow. For crowds, this involves planning for events like concerts or festivals to prevent overcrowding and ensure orderly movement through venues, while traffic management focuses on optimizing the flow of vehicles on roads to reduce congestion and accidents.

No Specific Tool is required
