This two-day hands-on workshop explores the integration of Google AI in higher education by combining practical sessions with guided demonstrations. Day 1 focuses on Google Workspace for Education Plus, offering a detailed walkthrough of Google Classroom to help participants understand its features and classroom applications. On Day 2, the focus shifts to Gemini, where attendees will engage in prompt-based practice and explore its practical use cases, along with NotebookLM and its integration with Google Workspace. By the end of the workshop, participants will have gained the skills and confidence to effectively leverage these tools to enhance teaching, learning, research, and overall academic productivity.
